

CASE STUDY

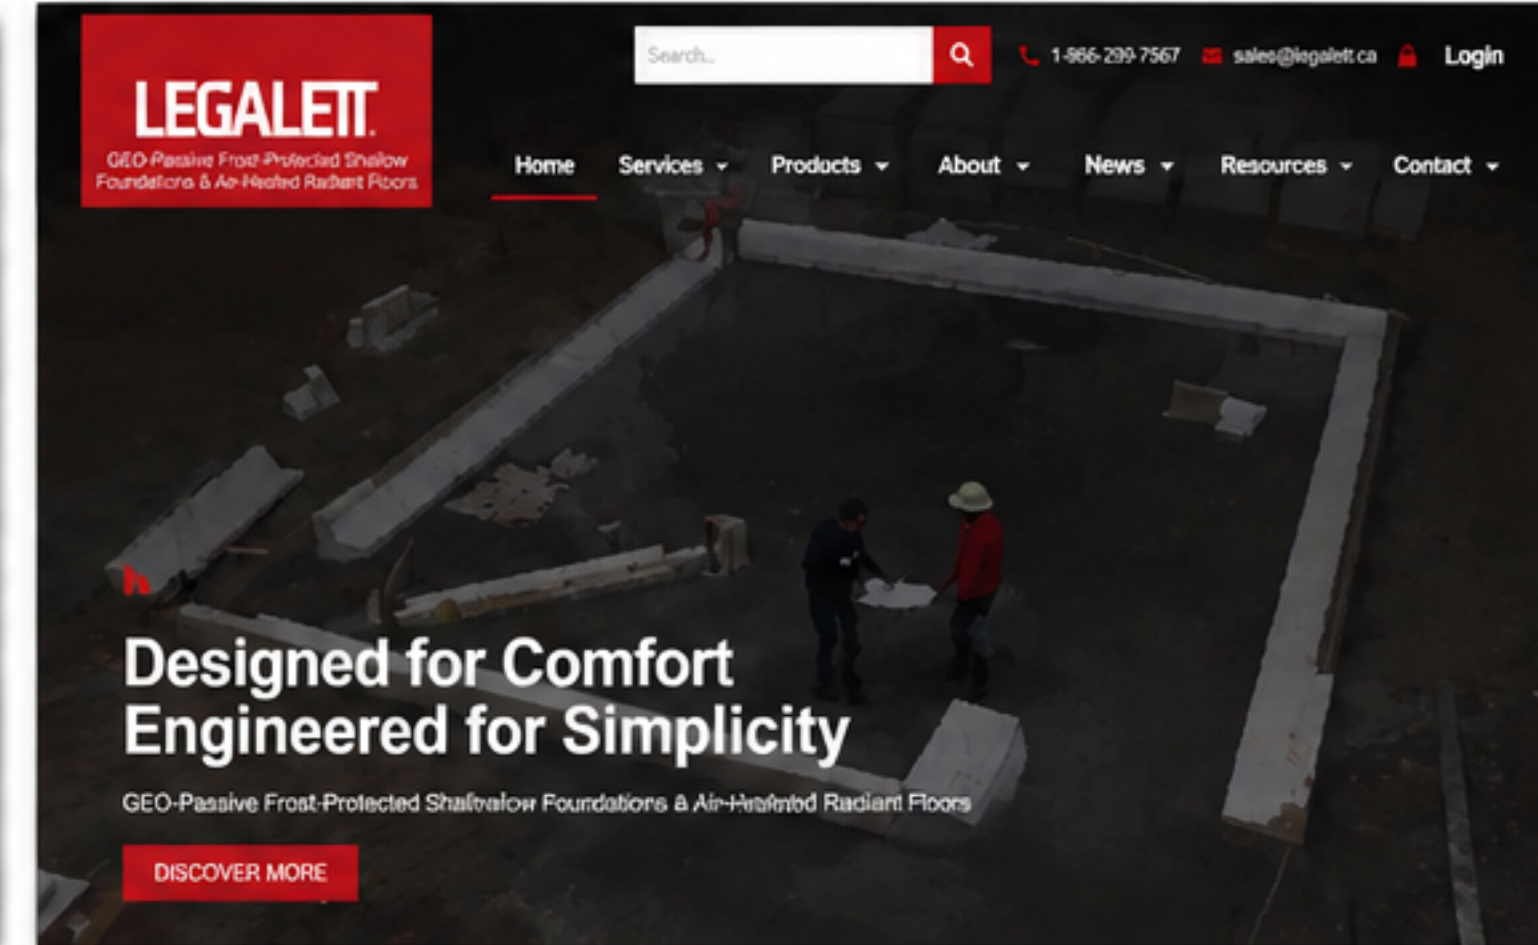

From Outdated to Outstanding.

We transformed Legalett's outdated website into a modern, high-performing digital experience that's faster, easier to manage, and built to drive results.

BEFORE

AFTER

BEFORE

- ✗ Website built in HTML
- ✗ Client had no access to backend
- ✗ Not mobile-friendly
- ✗ Outdated design and user experience
- ✗ Limited control over content
- ✗ Lack of modern functionality

Dated online presence that didn't reflect the quality of their work.

AFTER

Modern, Mobile-Friendly Design

A clean, professional look and feel that works seamlessly across all devices.

Real-Time Content Management

Client can now make changes in real time with full control over content.

More Control. Greater Flexibility.

Easy to update pages, add resources, and keep information current.

New Client Login

Secure client login for accessing specific information and resources.

Improved Performance

Faster load times and better overall website performance.

Stronger Online Impression

A modern online presence that builds trust and reinforces brand credibility.

A better website. More control. A stronger brand.
Legalett is now built for today—and ready for tomorrow.
